Libraworks' Virtual Library

02/10/2021

SPRINT 3:

Milestone Objective:

User Accounts: User Account Features

For Sprint 3, due to the tech talk and multiple midterms, we've condensed our focus to work as a group together instead of 4 different individual tasks. This keeps our app still on track because we started development during Capstone 1 as opposed to the beginning of Capstone 2.

Grant Saylor/Kyle Smith/Anthony Tran/Jiayi Xu:

Development Focus:

Expanding the User Profile/Pushing User Info to the Database/Filling out the User Personal Collection

Estimated Development Time: 9 hours (overestimation)

Notes:

Work will be done as a unit on all of the above development focuses, due to midterms and the tech talk. Work will be done to allow the user to enter in profile information such as favorite book, genre, etc. This information will then be stored in the database. Additionally, we will add features to create a personal collection for each user.

Amendments to Original Plan:

As outlined above, we've decided to work together as a group so we can also focus on midterms and the upcoming tech talk.
